

NWEA MAP® Growth™ Assessments

NWEA is a research-based, not-for-profit organization that supports students and educators worldwide by creating assessment solutions that precisely measure growth and proficiency—and provide insights to help tailor instruction. For 40 years, NWEA has developed Pre-K–12 assessments and professional learning offerings to help advance all students along their optimal learning paths. Our tools are trusted by educators in more than 9,500 schools, districts, and education agencies in 145 countries.

MAP® Growth™ measures what students know and informs what they're ready to learn next. By dynamically adjusting to each student's responses, MAP Growth creates a personalized assessment experience that accurately measures performance.

Highmore-Harrold School District students in grades 3-11 participate in MAP® Growth™ assessments three times per school year. Teachers use the results of these assessments to measure growth and to modify instruction as necessary. Currently, Highmore-Harrold School District policy does not allow students to opt out of MAP® Growth™ assessments.
